

Your opportunity to trial our **School Streets**

initiative

Why?

Parking, congestion, air pollution and safety around schools continues to be a key concern for schools, residents and communities.

What?

The School Streets initiative looks to provide a solution to these issues through a time limited congestion free zone during school drop off and pick up times. This initiative prioritises pedestrians such as parents and children by providing a safe space for people to walk and cycle in the vicinity of the school through a hard or soft closure of the road or street.

Who?

The Scheme will be coordinated by Leicestershire County Council who will;

- Deal with all enquires, complaints and consultation responses.
- Develop engagement and communications plans including campaign for volunteers.
- Provide training for volunteers.
- Inform businesses and residents of the trial as part of the Traffic Order consultation process.
- Arrange a park and stride location where possible.

Where?

Leicestershire County Council are looking for schools to take part in trials.

When?

September 2022 School Street launch, with planning and preparation taking place throughout the summer term.
